

SHASHANK S. PABITWAR

DATA ANALYST | SQL | POWER BI | TABLEAU | PYTHON | EXCEL

Flemington, NJ | (480) 876-3633 | spabitwa@asu.edu | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst with a computer science background and workforce analytics experience building validated SQL/Python workflows, BI dashboards, and data-driven applications across datasets of up to 20.93M records.

TECHNICAL SKILLS

Core Analytics: SQL (joins, CTEs, window functions), Python (pandas, NumPy), Excel (PivotTables, XLOOKUP, SUMIFS), statistical analysis, data cleaning, validation, reconciliation

BI & Visualization: *Power BI*, Power Query, DAX, *Tableau*, Looker, Looker Studio

Data & Cloud: Snowflake, dbt, PostgreSQL, DuckDB, ETL/ELT, dimensional modeling, AWS, Microsoft Azure, Azure Blob Storage

Additional Tools: R, SAS, Salesforce, Jira, Git/GitHub, Jupyter, REST APIs, Microsoft 365, Agile/Scrum

Business Analytics: KPI definition, requirements gathering, stakeholder communication, cross-functional collaboration, data documentation

EDUCATION

Arizona State University, Ira A. Fulton Schools of Engineering | Tempe, AZ | May 2026

B.S. Computer Science; Minor in Data Science | GPA: 3.89/4.00 | Summa Cum Laude

PROFESSIONAL EXPERIENCE

[OrgPath](#) | Data Analyst | Aug 2024 - May 2026

- Built Tableau dashboards for 2,000+ employee profiles using SQL, DAX, Power Query, and workforce KPI models to track succession readiness, retention risk, organizational health, and leadership-pipeline performance.
- Developed Python and SQL ETL workflows integrating HR, performance, and succession-planning data into PostgreSQL; implemented automated quality checks across employee and assessment records.
- Automated 25 recurring reports with HR, product, engineering, and executive stakeholders, reducing manual reporting time by 60% and supporting workforce-planning decisions.

[Global Career](#) | Data Analytics Project Trainee | Aug 2025 - Dec 2025

- Delivered three client-themed analytics and QA projects by cleaning 35 L'Oreal products across 13 brands, structuring nine Intel sustainability milestones, and validating three charity: water configurations against five outputs.

PROJECTS

CFPB Complaint Operations Analytics | *Tableau, Snowflake, dbt, SQL* | [GitHub](#) | [Dashboard](#)

- Modeled 9.36M CFPB complaints (2023-2025) through 15 dbt models, passing 31 tests and six reconciliations with zero duplicate IDs; published a Tableau dashboard showing growth from 1.19M to 5.44M and 80.9% credit-reporting concentration.

U.S. Airline Operations & Delay Analytics | *Excel, Power Query, SQL, Python, Statistics* | [GitHub](#)

- Processed 36 official BTS files covering 20.93M scheduled flights (2023-2025) using DuckDB, Excel and Python; identified 76.3% on-time performance in 2025, a 39.2% late-aircraft delay share and a 28.7% evening delay rate versus 13.4% in the morning.

NYC Taxi January 2025 Analytics | *Power BI, Power Query, DAX* | [GitHub](#)

- Built a three-page Power BI star-schema report for 3.48M trips, reconciling 3.25M valid and 224K excluded rows (93.55% validity); created validity-aware DAX measures and surfaced approximately \$88M in gross passenger spend.

PrepInterview AI Product Analytics Prototype | *Tableau, SQL, Python* | [GitHub](#) | [Dashboard](#) | [Live Product](#)

- Built a Tableau product-analytics prototype for an AI interview-preparation platform using synthetic data for 8,000 users and 125,044 events across funnels, cohorts, feature adoption, retention, learning outcomes and AI reliability; passed 24/24 validation checks and published a four-dashboard Tableau Story.

PixelPlanes Multiplayer Game | *WebSockets, WebRTC, JavaScript* | [Live](#)

- Built a deployed browser game with room-based multiplayer, real-time voice, client-side prediction/interpolation, and AI opponents; included as additional engineering work rather than an analytics claim.
